* New NSF Standard 7

Meets the NEW standard 7 requirements for cooling of the storage cabinet and food pan complies with and listed under ANSI/NSF-7

* Excellent Cooling System

The powerful forced-air refrigeration system holds the storage cabinet in a constant temperature.

Evaporator fans and stainless louver allows uniform distribution of cold air to reach all corners of the unit.

* Recessed Handles

Top and side easy grip handle

* Cold Air Compartment

Our innovative "Cold Air Compartment" maintains temperature equally for every pan in order to preserve fresh food longer. In addition, the compartment isolates pans from the reach in area to prevent food spilling into the unit.

* Stainless Steel Louver

Newly designed louver allows uniform distribution of cold air over the food pan to keep the food temperature within the New NSF Standard 7. It is built to withstand against food acids and stains which makes for easy clean up.

* Self-contained System

No plumbing required.
Simple installation.

* CEC. California Energy Commission Certificated

* MEA. City of New York Building Department Approved
